To Hiring Manager,
Packetlabs
401 Bay Street, Suite 1600
Toronto, ON M5H 2Y4

Dear Hiring Manager,

I am writing to express my interest in the Security Analyst (Co-op) position at Packetlabs, as advertised on your website. With a background in Network Security Administration and System Administration, and ongoing pursuit of CompTIA Security+ Certification, I am eager to contribute to your team and gain hands-on experience in advanced penetration testing.

During my tenure as a Network Security Administrator at Green Light Worldwide Pvt. Ltd., I honed my skills in conducting Nessus vulnerability scans, developing Python scripts for malware scanning, and configuring network infrastructure. Additionally, my experience as an IT Systems Administrator at Absolute I.T. equipped me with proficiency in tools like Burp Suite for web app security testing and PowerShell automation for Active Directory administration.

I am particularly drawn to Packetlabs' commitment to providing expert-level penetration testing and continuous learning. I am excited about the opportunity to assist with vulnerability assessments, penetration testing, and client presentations while working towards industry designations such as CISSP and OSCP.

Thank you for considering my application. I am enthusiastic about the possibility of contributing to Packetlabs and am eager to discuss how my skills and experiences align with your team's goals.

Sincerely,
Akshay Patel
